

**Model**

**Package X**

```
graph LR; Model -- contains --> PackageX[Package X];
```

The diagram illustrates a UML Package Diagram. A large rectangular container labeled "Model" is positioned on the left side of the image. Inside the "Model" container, there is a smaller rectangular container labeled "Package X". The "Package X" container is located in the upper-left corner of the "Model" container. The "Model" container is empty except for the "Package X" container. The "Package X" container is also empty.
