

Model

Package X

```
graph LR; subgraph Model; PackageX[Package X]; end; ClassA[Class A];
```

The diagram shows a package named 'Package X' and a class named 'Class A'. 'Package X' is represented by a rectangle with a smaller rectangle attached to its top-left corner. 'Class A' is represented by a rectangle divided into three horizontal compartments. The top compartment contains the text 'Class A', while the bottom two compartments are empty.

Class A
